HIS BLOODY CAREER

Edwards Makes Startling Confession to Chattanooga Jury.

SAYS HE HAS KILLED 14 MEN

Man on Trial in Hamilton County Tenn., for the Alleged Murder of Thos. Brooks in December Last Claims He Killed Many Others.

Chattanooga, Tenn., Oct. 5.—"I have shot and probably killed fourteen men in my time and the list may run up to twenty-five."

That remarkable statement was made Thursday by D. D. Edwards, who is on trial for killing Tom Brooks last December.

Edwards made his confession while under cross-examination.

He was asked by the attorney general if he killed any one previous to the killing of Brooks. Edwards admitted that he had killed a man in Kentucky. "Is that all?" asked the attorney general.

"Well," said Edwards, "I have shot and probably killed fourteen men in my time."

He stated that most of this occurred in Breathitt county, Kentucky, in feuds and in a strike at Chicago several years ago. He is a native of Breathitt county and recently aided in running down and capturing in the mountains of Breathitt the Lookout mountain wife murderer, Ed Turner.

Edwards did not change expression or give any indication of feeling when he confessed under cross examination to his bloody record, but after getting off the witness stand, added that the list might run up to twenty-five "if everythnig was included."

This is his second trial, he having been released without bail after his first trial.

Since then he has been in another state, but when notified of the date of his case, came back to Chattanooga immediately. He is considered the most remarkable prisoner ever tried in Hamilton county.

GIRLS LED TRAMP'S LIFE.

Wanted to Escape Drudgery of Dish Washing and Floor Scrubbing.

New York, Oct. 5—To escape the drudgery of washing dishes and scrubbing floors two servant girls, Stella Bena, aged 17, and Rose Miller, aged 18, lived for two months like tramps in the vicinity of Flushing, L. I., stealing milk, bread and meat from doorsteps, clothes from wash lines and cooking utensils, wherever they chanced on them.

These foraging expeditions were conducted at night and by day the girls lounged in thickets, slept and watched the boats go up Long Island sound. Detectives ran across the girls' camp and took them by surprise as they were squatting over a gypsy fire before a rude tent.

One of the girls was caught alone though she bit and scratched vigorously but the other got away for a short time.

When the prisoners were arraigned before a magistrate in Long Island City, Rose Miller, who is a tall and rather handsome girl, explained plausibly that utter weariness of housework had driven them to tramp life.

MEMPHIS IN GALA ATTIRE.

Tennessee City Did Honor to Visit of President Roosevelt.

Memphis, Tenn., Oct. 5—Thousands of visitors and citizens jammed the streets of Memphis Friday to do honor to President Roosevelt and many distinguished men who are here attending the second annual convention of the lake to the gulf waterway convention which met at the auditorium rink Friday morning.

Never before in the history of the city of Memphis had such a lavish display of flags and bunting been in evidence.

The buildings on the principal streets were a mass of color and pictures of the president were numerously displayed throughout the city.

Among the delegates to the convention were Governors of sixteen states, United States senators, representatives, noted engineers and prominent men from all sections of the country traversed by the Mississippi river and its tributaries.

DID MOTHER FAKE STORY?

Thought Tramp Story Was Invented to Placate Husband.

Burlington, Iowa, Oct. 5—It is now believed that the story told by Mrs. John Hathaway that a tramp tied her son to a fence post and burned him to death because she had refused to give the tramp food, is untrue.

The Hathaways live near Oquawka, Ill., and the woman's story had produced intense excitement in that immediate neighborhood.

The coroner's investigation developed that Mrs. Hathaway had left her children alone while she went to a neighbor's and it is thought that during her absence the boy set fire to his lothing while playying with matches. The officials of Oquawka believe that Mrs. Hathaway invented the tramp story in order to placate her husband. The coroner's jury returned a verdict of accidental death and Frank Williams, a negro, arrested at Monmouth, Ill., on suspicion of being implicated in the alleged crime, was released.

Smith's report showed that the equipment had been greatly improved during the year.

According to Sheriff Boes, Hines is said to have confessed that he shot Cohen, assaulted the girl and then strangled her to death.

NEW CHURCH ORGANIZATION.

Society for Promotion of Sociability Among Presbyterian Congregation.

Through the instrumentality of Mesdames Geo. P. Morris, L. C. Lynch, Hay and Brumley, a large number of young people of the congregation of the Presbyterian church met at the residence of Mrs. J. S. Bodiford Friday night and organized a society, the object of which is to promote sociability among the young people of the congregation and to welcome visiting strangers and make them feel at home. There were forty-one present, and the organization was perfected by the election of Miss Myra McMillan president, Ralph Chapin vice-president, Dolph Vidal secretary, and Miss Maggie Belle Taylor treasurer. The young people manifested much interest in the work and the new society promises to be a great help to the church.

After the election of officers the evening was passed by the rendition of vocal musical selections, and the consuming of elegant refreshments served by Mrs. Bodiford. Everyone present is loud in praise of Mrs. Bodiford's hospitality and declare that they would like to make her home the regular place of meeting.

The society will hold regular monthly meetings.

He left a wife and daughter and several grand-children.

The evening was pleasantly spent in playing different games, after which they were conducted to a bountiful repast served by Mrs. W. R. McGregor and Mrs. N. R. At a late hour, after thanking the host and hostess for the pleasant evening and the young ladies for the success of the occasion, and with the promise of another in the near future, all returned to their respective homes.

SEA ISLAND COTTON.

Savannah Market Ruled Quiet and Steady for the Week.

Savannah, Ga., Oct 5.—The market for Sea Island cotton ruled quiet and steady, all the week, and moderate transactions were reported at about unchanged prices. The demand was mostly for fancy, with a little enquiry for extra choice, and none for the inferior grades.

Very little Florida cotton coming in, most of the receipts being from Georgia. The quality of the receipts is not very good owing to recent heavy rains.

Crop accounts are less favorable, deterioration having resulted from the persistent rains and reports from Florida appear just as bad as the Georgia reports.

The Census Bureau on Friday reported the number of bales of Sea Island ginned to September 25 at 4,240, against 2,689 last year, and 11,936 two years ago.

DR. ROWLAND'S TRIAL

Pivotal Poin Reached In Sensational North Carolina Case.

HIS WIEE ALSO BEING TRIED

State Is Trying to Prove that Rowland Bought Aconitine, Which Is Alleged, Was Administered to Engineer Strange, Causing Death.

Raleigh, N. C., Oct. 5—The pivotal point was reached Thursday in the trial of Dr. D. S. Rowland and his wife for the murder of their engineer Strange on April 4th.

Strange was the husband of present Mrs. Rowland.

The evidence of Chemist [illegible] who analyzed the stomach of the man, showed that a man had been poisoned by aconitine [illegible] dredth and a ffith of a grain, a trace of it being found by the test of the stomach.

The state won its great victory Thursday in the Rowland trial when it was admitted as testimony [illegible] important circumstances bearing on the alleged murder of Engineer Strange by Dr. Rowland and [illegible] the former Mrs. Strange. The most important of these was the admission by the court of the evidence of the bookkeeper of the W. H. King drug company here that it had ordered 12 grains of aconitine, a deadly poison, quick to act, from New York for Dr. Rowland, and that the records showed that this was delivered to him on April 4th, two days before Strange had died, the state through its witnesses giving Strange's symptoms before death as those caused by aconitine.

The state also succeeded in getting into the case railroad tickets showing that Rowland and Mrs. Strange, a day before they were married, traveled by night in a Pullman while the hotel register showed that they registered in the Monticello hotel in Norfolk as Dr. and Mrs. D. S. Rowland. The state insisted that Strange's health was good, while the defense brought out every feature of heart disease.

The state rested late in the afternoon and the defense put on depositions from Memphis to show that in 1905 Strange suffered from heart trouble there.

SONG IS BARRED.

Capt. Cowles Refuses to Permit Band to Play Certain Music.

Norfolk, Va., Oct. [illegible] men of the United States [illegible] ship Franklin declare Captain Cowles, brother-in-law of President Roosevelt, has refused to permit the band on that ship to continue playing a song entitled "Don't Scare the Sailor," and which is intended for the uniform of the [illegible].

They declare that Captain Cowles stated the song is "making fun of the sailors," and if continued to be played might result in an infraction of the rules.

Admiral Evans, it is said, has adopted the song for the use of the bands on the ships of the fleet.

Shops Burned at Wadley.

Wadley, Ga., Oct. 5—The machine shops of the Wadley Southern railway company were destroyed by fire Wednesday night, the flames getting beyond control when discovered. The shop had only been completed [illegible] six months and was one of the best equipped in any small railroad shop in the state. The loss is estimated at between $12,500 and $15,000. It is not known whether or not any insurance was carried.

Apalachicola Goes Wet.

Columbus, Ga., Oct. 5—A special telegram received in Columbus says that the prohibition election in Apalachicola, Fla., at the mouth of the Chattahoochee river, resulted in victory for the saloon advocates. Both Apalachicola and Pensacola, further down the gulf coast, held their elections simultaneously, and in both cities the prohibitionists lost.

FEDERATION LABOR TO CONVENE HERE

Meeting Will be Held Some Time Between Now and December 15.

MANY DELEGATES TO COME

The Federation Represents All Organized Labor of State, and This Will Bring in Neighborhood of About Three Hundred Representatives.

Gainesville is to have the honorable distinction of entertaining another convention at an early date, this being the annual meeting of the State Federation of Labor.

The date has not yet been ascertained, but the session will be held, it is said, some time between this date and the middle of December, the time to be fixed later. The federation convened in Tampa last year, at which time it was decided to meet in Gainesville in 1907.

There will be about 300 delegates present at this convention from every section of the State, and representing every trade, and a big time is anticipated.

HAWTHORN COTTON SITUATION.

Farmers as a Rule Are Holding, But Number of Bales Have Been Sold.

F. J. Hammond, merchant and cotton buyer of Hawthorn, who spent Friday in this city, is authority for the statement that, while the crop it is anticipated will be short in his section, the plant is opening quite rapidly, and is being gathered and ginned as fast as possible. Like other sections of the county, however, pickers are scarce, and some of the planters are experiencing a great deal of difficulty in getting their crop gathered.

The gins have been quite busy, despite these adverse conditions, and a large quantity of cotton has been ginned so far this season, considering everything.

The farmers as a rule are holding their cotton, although about fifty bales have been sold at an average of 29¾ cents a pound. Buyers appear anxious to secure the staple, and are now offering 30 cents, but growers are slow to sell.

There is quite a lot of cotton stored in the warehouses at Hawthorn.

The Marriage Docket.

As usual, with the approach of chilly weather—the least bit chilly—the marriage docket, unlike the thermometer, begins to go up instead of down. Clerk Mason, who is holding down the chair of County Judge Mason during his absence in Virginia with the dignity of a sure-enough judge, has been kept busy for the past two days writing licenses. He had the satisfaction of writing more licenses during these two days than were issued during the entire month of September, to say nothing of those who secured licenses in other counties and were residents of this county.

Among the licenses issued were A. A. Burke and Mollie L. Swindle, E. H. Godwin and Willie Grand, white; Harry Short and Claudie Mathews, Steve Tompkins and Minnie Strickland, J. B. Williams and Bessie Shorn, J. L. Herrington and Mary Green, colored.

Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

What To Do.

The evening passed in a most enjoyable manner, a delightful informal program having been carried out. Delicious refreshments of fruit puch and assorted cake were served, and altogether the occasion was one which will long be remembered by those who were so fortunate as to be there.

S.S.S. DRIVES OUT RHEUMATISM

The cause of Rheumatism is a sour, acid condition of the blood, brought about by indigestion, chronic constipation, and the accumulation in the system of refuse matter which the natural eliminative organs fail to carry out. This refuse or waste matter ferments and sours, forming an acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. One may be afflicted with a predisposition or tendency to Rheumatism, because like all other diseases it can be transmitted from parent to child. The aches and pains of the disease are only symptoms which you may scatter or relieve with liniments, plasters, blisters, etc., or deaden with opiates. As soon however as such treatment is left off or there is any exposure to cold or dampness after an attack of indigestion or constipation, the wandering pains in the muscles and joints, and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms while the real cause of the disease remains in the blood. Rheumatism can never be cured while the blood remains saturated with irritating, pain-producing uric acid poison. S. S. S. cures Rheumatism by driving the cause out of the blood. It thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. S. S. S. stimulates and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, joints, nerves and bones, the body is soothed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of roots, herbs and barks which possess both purifying and tonic properties, just what is needed in every case of Rheumatism. Book on Rheumatism and medical advice free. An Old-Time Conductor.

Captain M. R. Gilmer of High Springs, one of the popular bell-cord yankers of the Atlantic Coast Line, was among those who spent Friday in Gainesville.

Captain Gilmer is well known here, being one of the pioneer conductors of the Atlantic Coast Line, being in charge of what is known as the "Moonlight Express" before the through trains were put on. This "express" consisted usually of about 25 to 75 box cars, heavily loaded, to which was attached a combination passenger coach, leaving High Springs at 6 o'clock at night and arriving at Rochelle, the southern destination, at "any old time." Captain Gilmer, by his clever manner, made himself popular by keeping the passengers in a good humor—and he has never lost that popularity, as those who had occasion to travel with him those days remember it.

GUARDS PREPARING FOR COMING CAMP

Semi-Annual Inspection and Muster Held on Tuesday Evening.

INSPECTION WAS GRATIFYING

Thirty-Five Men Responded to Command, and Inspectors Found Uniforms and Equipments in Good Condition—To Leave October 18.

Company H, Second Infantry, Florida State Troops, the Gainesville Guards, of which Captain John W. Blanding is in command, is making every preparation for the coming encampment, which will be held at Pensacola with the United States Coast Artillery, beginning on the 19th inst.

Captain Blanding is ably assisted in the command of his company by First Lieutenant Warren and Second Lieutenant W. D. Wheeler, two military men of experience. Lieutenant Warren was transferred from the Franklin County Guards, Apalachicola, where he served with efficiency, while Lieutenant Wheeler is a graduate and formerly an officer at East Florida Seminary.

On Tuesday evening the company, which has been drilling regularly twice a week for the past month, held the semi-annual inspection and muster. The inspection was well attended here, thirty-five men responding to the command. The inspection was conducted by the commanding officer and his lieutenants, and the soldiers made a very creditable record, their uniforms, arms and accoutrements as a rule being found in first-class condition.

There was also an inspection of the Micanopy squad, consisting of fifteen men, which was conducted by Sergeant Wm. P. Welch. Sergeant Welch reported everything satisfactory.

For the past two weeks Captain Blanding has been instructing his men in picket duty, and in this line they have become very proficient.

The following order has been issued by Commander Blanding:

"Armory Co. 'H,' 2nd Infantry F. S. T.,
"Gainesville, Fla., Oct. 1, 1907.
"Orders No. 13.

I. In accordance with G. O. No. 11, A. G. O. C. S., this company will take part in the coast defense maneuvers with the U. S. Coast Artillery at Pensacola, Fla., beginning October 19th. This will necessitate leaving Gainesville on October 18th. Orders covering this movement in detail will be issued at a later date.

II. All members of the company will be required to attend these exercises unless granted a furlough. All applications for furlough must be made in writing and addressed to the commanding officer of the Second Infantry, Orlando, Fla., and handed or mailed to me immediately. All members not excused and who fail to report will be tried by court martial at the conclusion of the encampment.

III. In addition to the regular uniform and equipment issued to each man, which will include one Kahki colored flannel shirt, all members will be required to supply themselves with the following articles: At least one extra shirt, either flannel or chambray, one black necktie, two suits of underclothes, three pairs socks, two extra shoes, one of which must be heavy leather. No low-quarter shoes will be allowed. Also two towels, one comb and necessary toilet articles. Uniforms will not be taken to camp and no white collars, cuffs, etc., will be required. The articles mentioned above will, of course, in addition to what is worn by each soldier, and all supplies of this order furnished company will be retained by them in camp. All shelter tent rolls will be inspected before leaving for camp and no excuse for failure to comply with Par. 3 of this order will be accepted.

Sprains and Swellings Cured.

In December, 1901, I caught cold and had quinsy. My throat was so sore I could hardly breathe. I used Chamberlain's Pain Balm and got relief in a short time. In a few days was all right," says Mrs. Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valued for sprains and swellings. For sale by all druggists.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

J. J. FINLEY CHAPTER.

Delegates Elected to Attend General Convention at Norfolk.

An interesting and well attended meeting of the J. J. Finley Chapter, U. D. C., was held at the home of Mrs. E. E. Voyle, 209 W. Masonic street, Thursday afternoon, and among other business the following ladies were elected as delegates to the General Convention of the U. D. C., to be held in Norfolk, Va., beginning November 13:

Mesdames John M. Taylor and John W. Tench, and Miss Amelia Adamson, with Mesdames J. M. Rivers, J. L. Medlin and W. T. Chesnut as alternates.

The ladies manifested a great deal of interest and enthusiasm at this meeting.

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

Mr. Colson Improving.

A letter received by The Sun from Battle Creek, Mich., under date of September 30, from Perry M. Colson, bears the information that his condition is very much improved, and that he expected to leave Battle Creek on that day. Mr. Colson says in part:

"You may stop sending me The Sun. I have appreciated The Sun very much, as it came like a letter from home every day.

"I expect to stop at Lexington, Ky., for a few weeks, and think I will reach home about November 1 very much improved in health."

Mr. Colson, who has been suffering for the past year or more, went to Battle Creek last June.

Afflicted With Sore Eyes for 33 Years.

I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earls, Cynthiana, Ky. Chamberlain's Salve is for sale by all druggists.

Arrived Safe at Richmond.

UNITED STATES LAND OFFICE.

Report for Quarter Just Ended Makes Very Encouraging Showing.

Receiver Shields Warren of the United States land office furnishes the following report of the business transacted by that office for the quarter ending September 30, 1907, which will make interesting reading to many:

Lands sold—Fifty-six commutted homesteads, 6502.03 acres; revenue, $8127.66. Excess, 67.01 acres; revenue, $83.92. Forty-one timber and stone filings, 3500.55 acres; revenue, $8772.62. Five Ft. Jupiter reservation entries, 549.70 acres; revenue, $290.87. Revenue from sale of preference rights, $509.76. Received fees and commissions, $305.20. Total acreage, 10619.29; total revenue, $20839.03.

One hundred and ninety-eight homestead entries, 21563 acres; 100 final proofs accepted, 11228.54 acres.

This report shows an increase of business for the preceding quarter of a substantial nature, and the officials of the land office are well satisfied with the same.

This increase is due largely to the fact that new-comers from every section of the United States, thrifty settlers, are coming to Florida and taking advantage of securing by homestead entry tracts of fertile lands, adapted to every class of horticulture and agriculture, with the result that the State is rapidly becoming filled up with this desirable class of settlers.

Work Progressing.

The street gangs in various sections of the city are keeping well occupied now. Many improvements are being made in the matter of filling in depressions and other repairs. About the most important at this time now, however, as far as magnitude is concerned, is the paving of East Main street. Work began on this thoroughfare two or three days ago, and is progressing nicely. The material used is crushed rock and gravel, the same as was employed in the construction of West Liberty street, which is said to be very durable. West Liberty has been constructed for nearly two years, and has been subjected to hard usage, and the thoroughfare today is in first-class condition.

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

A Modern Building.

Gainesville is rapidly coming to the front as a modern city, and about the most modern thing in the city is the new office building of The Gainesville National Bank.

These offices are on the second floor of the building known familiarly as the Endel block, but which has now come into possession of the bank. The entire building has been renovated and altered, and no city in the country can boast of a more modern office building.

It is stated that every office in the building has already been rented, and will be occupied as soon as the alterations are completed.

Lest We Forget

Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

THE GARDNERS HOME.

Had a Delightful Visit North, Where Mr. Gardner Bought Many Goods.

After a delightful visit of several weeks in Indiana, New York and other points, Mr. and Mrs. J. D. Gardner and son have returned to their home here.

Mr. Gardner, who is the manager any buyer for the large dry goods and millinery firm of The G. W. Hyde Company, spent the last three weeks of his trip in New York, where he went for the purpose of purchasing new and seasonable goods for the store here. Being an excellent judge of what is the latest, coupled with the fact that he is a shrewd buyer, he secured one of the largest, handsomest and most varied lines ever brought to this section of the State, and will have same on display at the proper time. The goods are now arriving, and the army of clerks at this popular store are busy getting them unpacked and on the shelves.

Our people may look for some exceptional styles and good values at Hyde's within the next few days.

The Florida State Fair will be held at Tampa next February, from the 7th to the 21st inclusive. Every preparation is being made to make it the most successful fair ever held in the State.

The saloons in Orange county all closed up shop on the night of September 30th, pending the wet and dry election on October 8th. It is not probable that they will be permitted to reopen.

Just how long the court has a right to sleep in the midst of a murder trial is agitating Elizabeth City county, Virginia. Justice, in that region, seems to carry the scales on its eyes instead of with outstretched arm.

One liquor dealer alone paid twenty-seven thousand dollars for license to do business in Jacksonville the coming year. Why a man with that much money should engage in such a business is beyond our comprehension.

There is at least one seaport town in Florida in which whiskey cannot be legally sold. At the recent election in Franklin county Carrabelle gave a majority of 92 against licensing saloons. Apalachicola, however, went wet by 113 majority.

The prohibitionists of Escambia will have the consolation of knowing that they put up a good fight, though it was a losing one. It will at least have the effect of making the saloon men have more respect for the law hereafter.

The saloon men did not win in Escambia county by such a large majority as first reported. Of the 23 electors 16 voted against and seven for selling. The city went wet by 170 majority in a total vote of 1148. The negroes are said to have voted the wet ticket almost solid.

Along the public square the dirt scraped and the sand which has accumulated on the surface of the pavement is being hauled off and dumped in places which badly need it. Let the good work go on. It is high time the people were getting something done with the money they have been paying taxes.

F. M. Ironmonger of the assistant general passenger agent of the Clyde Line, will be pleased to learn that his son, Frank, a boy of tender age, was painfully injured in New York on Monday by being run over by a heavy truck. It seems that young Ironmonger, in attempting to dodge a bicycle, came in contact with the truck, which passed over him and rendered him unconscious. He was examined, and it was ascertained that his skull was fractured. The boy's father was notified and left immediately for New York. Ironmonger has many friends in this city and section who will sympathize with him.

PRESIDENTIAL FORECASTS.

The Sun's Washington correspondent writes as follows of the probable candidates for President and Vice President:

"The Chicago Tribune recently completed a political poll of the country which has brought out some very interesting facts. At the present time the preponderance of Republican sentiment is for William H. Taft for President—provided Roosevelt declines to be a candidate. Fairbanks, Knox, Cannon, and Cortelyou, held in high esteem by party men everywhere, apparently are not in the running, while Gov. Hughes of New York, who is as yet little known in the political world, overtops them all. The most astonishing thing is that La Follette, that prince of radicals, bids fair to become stronger than they. From this it appears that radicalism, while not so violent now as it has been, is still exceedingly strong and healthy, and the conservatives at this writing appear to have but little show. Taft, so far, backed by the efforts and eulogies of the administration, has had rather smooth sailing. But there have been no determined efforts in his behalf except in his own State—Ohio. The politicians of the great States of New York, Pennsylvania, Wisconsin, Indiana, and Illinois, have their own axes to grind, and he will have a pretty hard row to hoe when his campaign in those States reaches an active stage. Without the support of those States his case is well nigh hopeless, though if Roosevelt can force the New York delegation to Taft it will be a strong factor in his favor. But in New York Hughes must be reckoned with, and he is a man who cannot be dictated to. He has his State behind him, and should he intimate to the delegates that he would like them to consider him, Roosevelt Taft, and everyone else would be thrown overboard.

"That Bryan is all-powerful and a man to be feared is evidenced by the efforts of the President's friends to have the Republican nominating convention held over until after the Democratic convention, when it will be known who the Republicans will have to contend with. They take the ground that Roosevelt is the only man who can beat anyone the Democrats may nominate, and they fear that if Roosevelt should be nominated in advance of the Democratic selection, Bryan will be the man to go against him, and in that event Bryan's principal argument would be against a third term for any President. In that event a short campaign would be in favor of the Republican party.

"It is also said that Judge Parker has designs on the Presidential chair, and that his New York friends are earnestly working for his nomination. They believe that the wave of radicalism is now receding, and that by the time the National campaign opens Parker, as a conservative, will be the most available man for the Democrats to nominate and go up against the Republicans. They are, however making a big mistake. Because the lusty hue and cry against the corporations has somewhat subsided is no sign that the radicals are losing their first enthusiasm and becoming more conservative. The public has learned its lesson well, and so have the sensible business men of the country. Perfect peace and quiet will only come when the necessary reforms have been accomplished. People have become enamored of the Roosevelt doctrines, and of the Democrats Bryan is the only man who closely approaches that standard, and he is growing in strength every day. The question that will confront the Democrats is apt to be not the selection of a man for the Presidency, but the naming of a man strong enough to be Bryan's running mate, and that man is likely to be Johnson of Ohio if he is successful in his mayoralty election, or Chanler of New York.

LEST WE FORGET.

It is well to keep in mind the actual facts of the political corruption fund that was raised at the last moment in the Roosevelt campaign of Harriman, at the solicitation of the President and expended by Cortelyou and Odell. That Republican paper, The New York Sun, puts it in chronological order thus: "On October 23, 1904, sixteen days before the election, Chairman Odell of the New York Republican State Committee reported the State to be in danger both as to Roosevelt and Higgins.

On October 24th Edward H. Harriman was called in.

On October 28th Mr. Harriman journeyed to Washington and consulted with President Roosevelt.

On October 29th Mr. Harriman returned to New York City and got into action.

On October 31st, eight days before election, known for a generation as Dough Day in the State, $200,000 of the $260,000 raised by Mr. Harriman was turned over to Chairman Odell for use in the State of New York. There were sixty county chairmen to be appeased, sixty county chairmen not accustomed to disappointment on Dough Day.

Election day was November 8th.

In the Republican vernacular of New York the word "dough" means money to corrupt the voters of the State, and we have the assurance of Edward H. Harriman that 50,000 votes were changed as the result of the fund collected by him and expended by the Republican politicians.

LOG CART NUISANCE.

The Sun has repeatedly called attention to the matter of heavy log carts invading the streets of the city with their heavy timbers, which plough up the thoroughfares and render them almost impassable. The streets are in miserable enough condition as it is, and these carts make them much worse, if such thing is possible.

For a year these teams have been using Arredondo street, with serious results. This street having been rendered in such a poor condition, they have changed their route to West Court and Pleasant streets, and at the present rate it will not be a great while before the condition of these thoroughfares will be deplorable.

There is a law against the driving of log carts on public highways, even in the country where the roads are frequently worked, and the authorities should at least protect the thoroughfares of the city.

It is a feature worth considering now that such strong efforts are being made to turn the tide of immigration Southward that the epidemic of violent crimes from which the North has suffered recently have been almost without exception committed by Italian immigrants. The Black Hand, the Maffia and the Camorra, if there is any difference between the three, have vied with each other in a perfect orgy of murder, assault, blackmailing and kidnapping. The bulk of these crimes have been committed by newly arrived immigrants, and almost without exception the criminals have been Italians. Of course it is not fair to judge a whole nation by its worst element. There has been Italian immigration in this country for decades, and the immigrants as a rule have made good citizens. Starting poor as ditch grinders, fruit venders and the like, many of them have come up to wealthy and good position in the business community. It used to be the exception rather than the rule to hear of an Italian committing anything worse than a petty crime. But the source of the Italian immigration has changed recently from the North to the South of Italy, and it seems to have brought into this country some truly undesirable citizens. As this is the case, and there is much talk of turning the newly arrived immigrants South as farm laborers, it may be well for the Southern States to sift this class of importation very carefully before accepting it. The South has had trouble enough managing the colored man and brother along this same line, and it is not worth while to tangle up with any new racial troubles if they can be avoided.

Some women's complexions don't show their age, for the simple reason that their age doesn't show through.

THE NOVEMBER ELECTIONS.

Besides Massachusetts, only six other States will this year vote for State officers. New York will elect two justices of the court of appeals. Kentucky, Maryland, Mississippi, New Jersey and Rhode Island will elect governors and other State officers. All of the elections will be held on November 5th.

Of these States Kentucky, Maryland, Mississippi and Rhode Island have Democratic governors; the two others are Republican. The significance of off-year elections is not as great as it used to be, inasmuch as State issues now frequently dominate the campaigns, in the absence of any great "burning" National issue upon which the parties are sharply divided. Yet, as this is the year before the Presidential election, the fact is recalled that when, in 1883, Foraker was defeated for governor of Ohio by George Hoadley, and other States witnessed a slump in the Republican vote, the wiseacres foresaw, or afterwards thought they did, the reaction which carried Grover Cleveland into the White House the next year. So in 1895, when Kentucky and Maryland elected Republican governors, the leaders of that party looked forward confidently to the victory which came the next year. Again in 1891, when the Democrats elected Flower in New York and Boies in Iowa, there was a falling off in the Republican majorities in other States.

The real contests this year will be in Massachusetts, where it is expected that Mr. Whitney will lead a vigorous campaign for tariff reduction and reciprocity; in New Jersey, where Republican divisions and the "reform wave" give to the leaders of that party some apprehension; and in Rhode Island, where the Democrats hope to carry again. Maryland, too, has joined the doubtful column. The Republican majority in 1900 was just about equalled by the Democrats in 1902, and in 1904 Roosevelt carried the State by only fifty-one. It is fighting ground this year.

Massachusetts has started the campaign earlier than any other of the States. Nowhere else has there been so much hot weather politics as the preliminary canvass has developed there. A good many people have seen in this another argument in favor of biennial elections. Of what advantage is it to anybody except the office-seekers, the lobbyists and the other professional politicians to have these annual stir-ups, nobody has yet given a rational idea.

THE TAX QUESTION.

Referring to the tax question The Brooksville Argus says:

"If the land paid the tax there would be more improvements in our rural districts and more people in the rural districts to make the improvements. Let the land, not the industry and enterprise of an agricultural country, pay the taxes levied to maintain the peace, good order and safety of a community."

The Sun is in thorough accord with Bro. Russell on this question. There are hundreds of large land owners in Florida who will neither improve their holdings or sell an acre to persons who would improve it, and they should be made to bear a larger proportion of the taxes for maintaining the government. As it is, the men of thrift and industry who improve their property are taxed for every dollar expended for improvements, but the wealthy persons who own large tracts of vacant land return the same at a nominal sum and thus escape their just proportion of taxes on property which they are holding for speculative purposes. All land should be classified and each class taxed at the same rate, the unimproved in the same class being taxed on the same valuation as the improved land.

The Punta Gorda Herald says of the artesian well in that town: "Those who are complimenting Punta Gorda's great artesian well should know that the natural force beneath it sent a solid eight-inch column of water through a vertical pipe twenty-three feet high, and the contractor said that the power is sufficient to lift that column of water to a height of fifty feet. This suggests great possibilities." A well of such force might afford power enough for some minor industries, provided the sinking of other wells does not diminish the pressure.—Jacksonville Times-Union. Just imagine what such an artesian well would be worth to Gainesville. So far, however, all efforts to secure a flowing well here have proved a failure. This is either the hardest place in the State to bore a well, or those who have attempted the work have not been equipped with the proper machinery.

The DeLand Record says: "There will be no oranges sold in Florida this season at $1.00 per box on the tree. The few crops which have been sold so far have brought about $1.50 on the tree, and there will be few oranges sold for less than this price. Tangerines are selling from $2.50 to $3.00 per box f. o. b. With a half crop, compared with last year, the growers are going to get good prices for their fruit this year."

COUNT WINS HEIRESS

Austrian Nobleman to Wed Miss Gladys Vanderbilt.

RICHEST HEIRESS IN WORLD

Count Szechenyi Has Arrived from Austria and His Engagement to a Daughter of the Vanderbilts Is Soon To Be Announced.

New York, Oct. 4.—Advices from Newport, R. I., report the arrival there of Count Landislaus Szzechenyi, of Austria, and say that the formal annonucement of his engagement to Miss Gladys Moore Vanderbilt, daughter of the late Cornelius Vanderbilt, and one of the richest heiresses in the country, is soon expected.

Miss Vanderbilt met the count at the railway station in Newport, and drove him to "The Breakers," the famous Vanderbilt palace, which, it is stated, was opened Wednesday for the first time in two years, presumably for the count's return.

Miss Vanderbilt, the dispatches state, spent the whole day with the count in drives and walks and when she was not alone with him her mother was an enthusiastic third party. The count arrived from Bremen late Tuesday night. Alfred and Reginald Vanderbilt met the count ,whisked him off in a motor car for a hasty supper alone at one of their clubs and later saw that he was installed in a private car bound for Newport.

Newport's first impression of the count, it is stated, was decidedly favorable. Numerous entertainments will be given for him and Miss Vanderbilt within the next week.

Count Szecheneyi is 28 years old, rich, good looking and a lieutenant in the king's imperial huzzars.

Miss Gladys is just past her twenty-first birthday when she was allotted her share of her father's vast estate, the share amounting, it is estimated, to about $12,500,000.

The Herald says it is authorized to announce the engagement of Miss Vanderbilt and Count Szechenyi.

FARMER'S UNION MET.

Thirty-Eight Unions Represented at Meeting in Rome Ga.

Rome, Ga., Oct. 4.—The Floyd County Farmers' union met Wednesday in the court house here with 38 local unions represented.

The question of holding cotton was discussed, and it was universally decided that every reasonable effort would be made to keep as much of the cotton off the market for the next 30 days as possible.

The meeting had a particular significance, as the farmers of Floyd county are greatly interested in the work of the union just at this time, and are taking an active part because of alleged misleading statements as to the crop in Georgia, which have operated to lower the price of cotton to the injury of the farmer.

It is understood that these high estimates are distasteful to a large number of the members of the union of Floyd county, and that all condemn them. Resolutions on the subject were passed.

100 Special Guards on Duty.

New Orleans, La., Oct. 3.—One hundred special guards went on duty at the Stuyvesant docks of the Illinois Central railroad Wednesday in anticipation of the threatened levee strike involving 8,000 to 10,000 laborers. The strike extends slowly, two crews of longshoremen quiting the steamers whose crews were set to loading. Between 1,000 and 2,000 men have now formally struck, while hundreds of others are idle and waiting only to be ordered to work before joining the strike.

Only Three Offices Affected.

New York, Oct. 4.—A threatened strike of pressmen in job printing plants throughout the country, which was scheduled to go into effect Wednesday, affects only three offices in Chicago, according to advices received at the United Typothetae headquarters in this city.

$12,000,000 Mortgage Filed.

HIS SKULL WAS CRUSHED.

Fatal Difficulty Occurred Near Dalton, Whitfield County, Ga.

Dalton, Ga., Oct. 4.—Chester Wilson, a prominent young farmer living in th enorthern part of the county, died Wednesday as a result of being struck on the back of the head with a heavy wagon brake stick, while engaged in a war of words on Thursday of last week, with two boys by the name of Warnick.

While engaged in conversation with Jim Warnick, it is alleged, his brother, Claud Warnick, stepped up and hit Wilson a terrible blow, crushing his skull.

Jim Warnick was arrested, but his brother escaped and Wednesday Sheriff Jonnson offered a reward of $200 for his arrest. Young Wilson is a son of County Commissioner J. A. Wilson, and has a large and influential connection in the county.

SALUTED BY AERIAL BOMBS.

Taft, Secretry of War, Is Given Ovation at Kyoto Japan.

Japan, Oct. 4.—Secretary Taft, Mrs. Taft and their party arrived at Kyoto at 7:30 Thursday morning. Mr. Taft was fatigued but in good spirits. The approach of the train to Kyoto was signalled by salvos of aerial explosions of bombs.

German Count Kuroki, the famous commander of the Japanese right army in Manchuria, met Mr. Taft on his arrival at Kyoto and invited the party to an informal luncheon, after which the male travelers visited many points of interest. Mrs. Taft, however, preferred to go shopping.

A Delightful Surprise.

A number of the young friends of Miss Winnefred Pedrick, daughter of Mr. and Mrs. Chas. C. Pedrick, gave her a delightful surprise party Thursday evening, which was in fact a surprise.

Miss Pedrick, however, with her usual clever disposition, was equal to the occasion, and bade her friends welcome. She entertained them in a most hospitable manner during the evening, and all who attended reported it the most successful "surprise" they had ever witnessed.

Miss Pedrick, who is a winsome young lady, is becoming quite popular among the members of the young set here. Possessed of that open, frank and sincere disposition which has always characterized her, it is no effort for her to control the friendship and confidence of all whom she meets.

SENATOR BORAH ACQUITTED.

Great Demonstration Made in Boise, Idaho, Over the Event.

Boise, Idaho, Oct. 4.—United States Senator William E. Borah was acquitted of the charge of conspiracy to defraud the government of Idaho timber lands.

The case was submitted without argument by the defense and the jury was out just long enough to take one ballot.

The verdict was greeted with cheers and applause, which the court officers made no effort to restrain. As soon as the news reached the street, bells were rung and the fire department made a spectacular run through the principal streets, stopping eventually at the Idaho hotel, where Senator Borah, surrounded by several hundred citizens, was escorted.

A brass band appeared as if by magic and as the senator reached the hotel, played "Hail to the Chief."

The streets about the hotel were blocked by a cheering throng whose shouts mingled with the fire engines' whistles and clangs of trolley car bells.

Senator Borah thanked the people for their demonstration of confidence in him throughout the trial.

Horse Jumped Through Window.

Paducah, Ky., Oct. 3.—Thrown from their buggy, as the horse jumped through a 14-foot plateglass window on Broadway, Mrs. W. F. Johnson and sister, Miss Mollie Sullivan, were seriously injured while 4-year-old "Buster Brown" Johnson sat amid the falling glass unharmed. Broadway was crowded with shop girls and business men returning from work when the horse scared at a car, took the sidewalk and jumped into the window. Both women alighted in the mass of broken glass.

PENDREL IN NEW YORK.

Well-Known Transportation Man Enjoying His Vacation.

John Pendrel, the well-known and popular traveling passenger agent of the Clyde Line, who spends two-thirds of his time in Florida among his friends, and would like to spend the other one-third if his employers did not push him North each year, was last heard from in Rochester, N. Y., where he was spending a day or two with his old friend, Chas. R. Hollinger, a former transportation man and at one time one of the most widely known steamboat traffic men in Florida. Mr Hollinger is also well known, for years being head steward, in charge of headquarters, of the famous Hart Ocklawaha River Line, when the Hart steamers were making double-daily trips up the far-famed Ocklawaha, the Riveria of America, and when even then the commodious steamers of this line could not accommodate all who applied for passage.

Mr. Hollinger, who will be remembered by many Gainesville people in what may now be termed the pioneer days is now prontably engaged in the insurance business, declaring that steamboat life was too strenuous a career for him—notwithstanding that he made up his mind in this direction after he had served about twenty years at the business.

Mr. Pendrel writes that the weather is quite cool in that section of the country, and, notwithstanding the fact that he had just "lit" in New York State he was ready to come home.

NOTABLE MEDICAL DISCOVERY.

Of Special Value to Many Here in Gainesville.

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Gainesville is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is always no excuse for anyone suffering with indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heartburn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by J. W. McCollum & Co. under an absolute guarantee to refund the money if it should fail to cure.

C. which will be held in November, until a future meeting.

Clerk of the Court S. H. Wienges, with a desire to save labor and be up-to-date, has received a new book-writing machine, which he will install in his office. It is not only a great labor and time-saver, but produces a very superior quality of work.

Col. John B. Bell, formerly of this city, later of Hague, again of this city and now of Hague, was in the city yesterday. Col. Bell found it necessary eventually to "hommat" hue, go to the mountain which is his farm, instead of trying to induce the mercantile to come to him. He has one of the finest and most prolific farms in the county, but finally, after two or three moves, decided that it was more profitable to look after his own interests in the country.

It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

Dr. Zack Price, formerly of Micanopy, where for years he was engaged in the practice of his profession, but now residing in South Florida, was in the city yesterday. HIS BLOODY CAREER

Edwards Makes Startling Confession to Chattanooga Jury.

SAYS HE HAS KILLED 14 MEN

Man on Trial in Hamilton County Tenn., for the Alleged Murder of Thos. Brooks in December Last Claims He Killed Many Others.

Chattanooga, Tenn., Oct. 5.—"I have shot and probably killed fourteen men in my time and the list may run up to twenty-five."

That remarkable statement was made Thursday by D. D. Edwards, who is on trial for killing Tom Brooks last December.

Edwards made his confession while under cross-examination.

He was asked by the attorney general if he killed any one previous to the killing of Brooks. Edwards admitted that he had killed a man in Kentucky. "Is that all?" asked the attorney general.

"Well," said Edwards, "I have shot and probably killed fourteen men in my time."

He stated that most of this occurred in Breathitt county, Kentucky, in feuds and in a strike at Chicago several years ago. He is a native of Breathitt county and recently aided in running down and capturing in the mountains of Breathitt the Lookout mountain wife murderer, Ed Turner.

Edwards did not change expression or give any indication of feeling when he confessed under cross examination to his bloody record, but after getting off the witness stand, added that the list might run up to twenty-five "if everythnig was included."

This is his second trial, he having been released without bail after his first trial.

Since then he has been in another state, but when notified of the date of his case, came back to Chattanooga immediately. He is considered the most remarkable prisoner ever tried in Hamilton county.

GIRLS LED TRAMP'S LIFE.

Wanted to Escape Drudgery of Dish Washing and Floor Scrubbing.

New York, Oct. 5—To escape the drudgery of washing dishes and scrubbing floors two servant girls, Stella Bena, aged 17, and Rose Miller, aged 18, lived for two months like tramps in the vicinity of Flushing, L. I., stealing milk, bread and meat from doorsteps, clothes from wash lines and cooking utensils, wherever they chanced on them.

These foraging expeditions were conducted at night and by day the girls lounged in thickets, slept and watched the boats go up Long Island sound. Detectives ran across the girls' camp and took them by surprise as they were squatting over a gypsy fire before a rude tent.

One of the girls was caught alone though she bit and scratched vigorously but the other got away for a short time.

When the prisoners were arraigned before a magistrate in Long Island City, Rose Miller, who is a tall and rather handsome girl, explained plausibly that utter weariness of housework had driven them to tramp life.

MEMPHIS IN GALA ATTIRE.

The buildings on the principal streets were a mass of color and pictures of the president were numerously displayed throughout the city.

Among the delegates to the convention were Governors of sixteen states, United States senators, representatives, noted engineers and prominent men from all sections of the country traversed by the Mississippi river and its tributaries.

DID MOTHER FAKE STORY?

Thought Tramp Story Was Invented to Placate Husband.

Burlington, Iowa, Oct. 5—It is now believed that the story told by Mrs. John Hathaway that a tramp tied her son to a fence post and burned him to death because she had refused to give the tramp food, is untrue.

The Hathaways live near Oquawka, Ill., and the woman's story had produced intense excitement in that immediate neighborhood.

The coroner's investigation developed that Mrs. Hathaway had left her children alone while she went to a neighbor's and it is thought that during her absence the boy set fire to his clothing while playying with matches. The officials of Oquawka believe that Mrs. Hathaway invented the tramp story in order to placate her husband. The coroner's jury returned a verdict of accidental death and Frank Williams, a negro, arrested at Monmouth, Ill., on suspicion of being implicated in the alleged crime, was released.

Smith's report showed that the equipment had been greatly improved during the year.

The young people manifested much interest in the work and the new society promises to be a great help to the church.

SEA ISLAND COTTON.

Savannah Market Ruled Quiet and Steady for the Week.

Savannah, Ga., Oct 5.—The market for Sea Island cotton ruled quiet and steady, all the week, and moderate transactions were reported at about unchanged prices. The demand was mostly for fancy, with a little enquiry for extra choice, and none for the inferior grades.

Very little Florida cotton coming in, most of the receipts being from Georgia. The quality of the receipts is not very good owing to recent heavy rains.

Crop accounts are less favorable, deterioration having resulted from the persistent rains and reports from Florida appear just as bad as the Georgia reports.

The most important of these was the admission by the court of the evidence of the bookkeeper of the W. H. King company here that it had ordered 25 grains of aconitine, a deadly poison, quick to act, from New York for Dr. Rowland, and that the records showed that this was delivered to him on April 4th, two days before Strange had died, the state through its witnesses giving Strange's symptoms before death as those caused by aconitine.

The state also succeeded in getting into the case railroad tickets showing that Rowland and Mrs. Strange, a day before they were married, traveled by night in a Pullman while the hotel register showed that they registered in the Monticello hotel in Norfolk as Dr. and Mrs. D. S. Rowland. The state insisted that Strange's health was good, while the defense brought out every feature of that disease.

The state rested late in the afternoon and the defense put on depositions from Memphis to show that in 1905 Strange suffered from kidney trouble there.

FEDERATION LABOR TO CONVENE HERE

Meeting Will be Held Some Time Between Now and December 15.

MANY DELEGATES TO COME

The Federation Represents All Organized Labor of State, and This Will Bring in Neighborhood of About Three Hundred Representatives.

Gainesville is to have the honorable distinction of entertaining another convention at an early date, this being the annual meeting of the State Federation of Labor.

The date has not yet been ascertained, but the session will be held, it is said, some time between this date and the middle of December, the time to be fixed later. The federation convened in Tampa last year, at which time it was decided to meet in Gainesville in 1907.

There will be about 300 delegates present at this convention from every section of the State, and representing every trade, and a big time is anticipated.

HAWTHORN COTTON SITUATION.

Farmers as a Rule Are Holding, But Number of Bales Have Been Sold.

F. J. Hammond, merchant and cotton buyer of Hawthorn, who spent Friday in this city, is authority for the statement that, while the crop it is anticipated will be short in his section, the plant is opening quite rapidly, and is being gathered and ginned as fast as possible. Like other sections of the county, however, pickers are scarce, and some of the planters are experiencing a great deal of difficulty in getting their crop gathered.

The gins have been quite busy, despite these adverse conditions, and a large quantity of cotton has been ginned so far this season, considering everything.

The farmers as a rule are holding their cotton, although about fifty bales have been sold at an average of 29¾ cents a pound. Buyers appear anxious to secure the staple, and are now offering 30 cents, but growers are slow to sell.

There is quite a lot of cotton stored in the warehouses at Hawthorn.

The Marriage Docket.

As usual, with the approach of chilly weather—the least bit chilly—the marriage docket, unlike the thermometer, begins to go up instead of down. Clerk Mason, who is holding down the chair of County Judge Mason during his absence in Virginia with the dignity of a sure-enough judge, has been kept busy for the past two days writing licenses. He had the satisfaction of writing more licenses during these two days than were issued during the entire month of September, to say nothing of those who secured licenses in other counties and were residents of this county.

Among the licenses issued were A. A. Burke and Mollie L. Swindle, E. H. Godwin and Willie Grand, white; Harry Short and Claudie Mathews, Steve Tompkins and Minnie Strickland, J. B. Williams and Bessie Shorn, J. L. Herrington and Mary Green, colored.

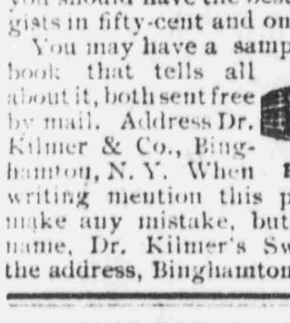
Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. When kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.



What To Do.

S.S.S. DRIVES OUT RHEUMATISM

The cause of Rheumatism is a sour, acid condition of the blood, brought about by indigestion, chronic constipation, and the accumulation in the system of refuse matter which the natural eliminative organs fail to carry out. This refuse or waste matter ferments and sours, forming an acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. One may be born with a predisposition or tendency to Rheumatism, because like all blood diseases it can be transmitted from parent to child. The aches and pains of the disease are only symptoms which you may scatter or relieve with liniments, plasters, blisters, etc., or deaden with opiates. As soon, however, as such treatment is left off or there is any exposure to cold or dampness, after an attack of indigestion or constipation, the wandering pains, sore muscles and joints, and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms while the real cause of the disease remains in the blood. Rheumatism can never be cured while the blood remains saturated with irritating, pain-producing uric acid poison. S. S. S. cures Rheumatism by driving the cause out of the blood. It thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. S. S. S. stimulates and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, joints, nerves and bones, the body is soothed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of roots, herbs and barks which possess both purifying and tonic properties, just what is needed in every case of Rheumatism. Book on Rheumatism and medical advice free. An Old-Time Conductor.

Captain M. R. Gilmer of High Springs, one of the popular bell-cord yankers of the Atlantic Coast Line, was among those who spent Friday in Gainesville.

Captain Gilmer is well known here, being one of the pioneer conductors of the Atlantic Coast Line, being in charge of what is known as the "Moonlight Express" before the through trains were put on. This "express" consisted usually of about 25 to 75 box cars, heavily loaded, to which was attached a combination passenger coach, leaving High Springs at 6 o'clock at night and arriving at Rochelle, the southern destination, at "any old time." Captain Gilmer, by his clever manner, made himself popular by keeping the passengers in a good humor—and he has never lost that popularity, as those who had occasion to travel with him those days remember it.

GUARDS PREPARING FOR COMING CAMP

Semi-Annual Inspection and Muster Held on Tuesday Evening.

INSPECTION WAS GRATIFYING

Thirty-Five Men Responded to Command, and Inspectors Found Uniforms and Equipments in Good Condition—To Leave October 18.

Company H, Second Infantry, Florida State Troops, the Gainesville Guards, of which Captain John W. Blanding is in command, is making every preparation for the coming encampment, which will be held at Pensacola with the United States Coast Artillery, beginning on the 19th inst.

Captain Blanding is ably assisted in the command of his company by First Lieutenant Warren and Second Lieutenant W. D. Wheeler, two military men of experience. Lieutenant Warren was transferred from the Franklin County Guards, Apalachicola, where he served with efficiency, while Lieutenant Wheeler is a graduate and formerly an officer at East Florida Seminary.

On Tuesday evening the company, which has been drilling regularly twice a week for the past month, held the semi-annual inspection and muster. The inspection was well attended here, thirty-five men responding to the command. The inspection was conducted by the commanding officer and his lieutenants, and the soldiers made a very creditable record, their uniforms, arms and accoutrements as a rule being found in first-class condition.

There was also an inspection of the Micanopy squad, consisting of fifteen men, which was conducted by Sergeant Wm. P. Welch. Sergeant Welch reported everything satisfactory.

For the past two weeks Captain Blanding has been instructing his men in picket duty, and in this line they have become very proficient.

The following order has been issued by Commander Blanding:

Armory Co. 'H,' 2nd Infantry F. S. T.,
Gainesville, Fla., Oct. 1, 1907.
Orders No. 13.

I. In accordance with G. O. No. 11, A. G. O. C. S., this company will take part in the coast defense maneuvers with the U. S. Coast Artillery at Pensacola, Fla., beginning October 19th. This will necessitate leaving Gainesville on October 18th. Orders covering this movement in detail will be issued at a later date.

II. All members of the company will be required to attend these exercises unless granted a furlough. All applications for furlough must be made in writing and addressed to the commanding officer of the Second Infantry, Orlando, Fla., and handed or mailed to me immediately. All members not excused and who fail to report will be tried by court martial at the conclusion of the encampment.

III. In addition to the regular uniform and equipment issued to each man, which will include one Kahki colored flannel shirt, all members will be required to supply themselves with the following articles: At least one shirt, either flannel or chambray, one black necktie, two suits of underclothes, three pairs socks, two pairs shoes, one of which must be leather. No low-quarter shoes will be allowed. Also two towels, one comb and necessary toilet articles. Uniforms will not be taken to camp and no white collars, cuffs, etc., will be required. The articles mentioned above will, of course, be worn by each soldier, and will be in addition to what is worn.

IV. Duplicates of this order furnished each man will be retained by them for reference. All shelter tent rolls will be inspected before leaving for camp, and no excuse for failure to comply with Par. 3 of this order will be accepted.

Sprains and Swellings Cured.

In December, 1901, I caught cold which settled in the quinsy. My throat was so sore I could hardly breathe. I used Chamberlain's Pain Balm and got relief in a short time. In a few days I was all right," says Mrs. Mary Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valued for sprains and swellings. For sale by all druggists.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

J. J. FINLEY CHAPTER.

Delegates Elected to Attend General Convention at Norfolk.

An interesting and well attended meeting of the J. J. Finley Chapter, U. D. C., was held at the home of Mrs. E. E. Voyle, 209 W. Masonic street, Thursday afternoon, and among other business the following ladies were elected as delegates to the General Convention of the U. D. C., to be held in Norfolk, Va., beginning November 13:

Mesdames John M. Taylor and John W. Tench, and Miss Amelia Adamson, with Mesdames J. M. Rivers, J. L. Medlin and W. T. Chesnut as alternates.

The ladies manifested a great deal of interest and enthusiasm at this meeting.

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

Mr. Colson Improving.

A letter received by The Sun from Battle Creek, Mich., under date of September 30, from Perry M. Colson, bears the information that his condition is very much improved, and that he expected to leave Battle Creek on that day. Mr. Colson says in part:

"You may stop sending me The Sun. I have appreciated The Sun very much, as it came like a letter from home every day.

"I expect to stop at Lexington, Ky., for a few weeks, and think I will reach home about November 1 very much improved in health."

Mr. Colson, who has been suffering for the past year or more, went to Battle Creek last June.

Afflicted With Sore Eyes for 33 Years.

I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earls, Cynthiana, Ky. Chamberlain's Salve is for sale by all druggists.

UNITED STATES LAND OFFICE.

Report for Quarter Just Ended Makes Very Encouraging Showing.

Receiver Shields Warren of the United States land office furnishes the following report of the business transacted by that office for the quarter ending September 30, 1907, which will make interesting reading to many:

Lands sold—Fifty-six commutted homesteads, 6502.03 acres; revenue, $8127.66. Excess, 67.01 acres; revenue, $83.92. Forty-one timber and stone filings, 3500.55 acres; revenue, $8772.62. Five Ft. Jupiter reservation entries, 549.70 acres; revenue, $290.87. Revenue from sale of preference rights, $509.76. Received fees and commissions, $305.20. Total acreage, 10619.29; total revenue, $20839.03.

One hundred and ninety-eight homestead entries, 21563 acres; 100 final proofs accepted, 11228.54 acres.

This report shows an increase of business for the preceding quarter of a substantial nature, and the officials of the land office are well satisfied with the same.

This increase is due largely to the fact that new-comers from every section of the United States, thrifty settlers are coming to Florida and taking advantage of securing by homestead entry tracts of fertile lands, adapted to every class of horticulture and agriculture, with the result that the State is rapidly becoming filled up with this desirable class of settlers.

Work Progressing.

The street gangs in various sections of the city are keeping well occupied now. Many improvements are being made in the matter of filling in depressions and other repairs. About the most important at this time now, however, as far as magnitude is concerned, is the paving of East Main street. Work began on this thoroughfare two or three days ago, and is progressing nicely. The material used is crushed rock and gravel, the same as was employed in the construction of West Liberty street, which is said to be very durable. West Liberty has been constructed for nearly two years, and has been subjected to hard usage, and the thoroughfare today is in first-class condition.

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

A Modern Building.

Gainesville is rapidly coming to the front as a modern city, and about the most modern thing in the city is the new office building of The Gainesville National Bank.

These offices are on the second floor of the building known familiarly as the Endel block, but which has now come into possession of the bank. The entire building has been renovated and altered and no city in the country can boast of a more modern office building.

It is stated that every office in the building has already been rented and will be occupied as soon as the alterations are completed.

Lest We Forget

Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

THE GARDNERS HOME.

Had a Delightful Visit North, Where Mr. Gardner Bought Many Goods.

After a delightful visit of several weeks in Indiana, New York and other points, Mr. and Mrs. J. D. Gardner and son have returned to their home here.

Mr. Gardner, who is the manager any buyer for the large dry goods and millinery firm of The G. W. Hyde Company, spent the last three weeks of his trip in New York, where he went for the purpose of purchasing new and seasonable goods for the store here. Being an excellent judge of what is the latest, coupled with the fact that he is a shrewd buyer, he secured one of the largest, handsomest and most varied lines ever brought to this section of the State, and will have same on display at the proper time. The goods are now arriving, and the army of clerks at this popular store are busy getting them unpacked and on the shelves.

Our people may look for some exceptional styles and good values at Hyde's within the next few days.

Deceased was a very popular young man, and his friends deeply regret his death.

The Sun, with other friends, extends sympathy to the bereaved parents in their hour of trouble.

Bob McNamee, who looks like Napoleon, did not meet his Waterloo in Pensacola, but The Banner says he will meet it in Ocala.

The Florida State Fair will be held at Tampa next February, from the 5th to the 21st inclusive. Every preparation is being made to make it the most successful fair ever held in the State.

The saloons in Orange county all closed up shop on the night of September 30th, pending the wet and dry election on October 8th. It is not probable that they will be permitted to reopen.

Just how long the court has a right to sleep in the midst of a murder trial is agitating Elizabeth City county, Virginia. Justice, in that region, seems to carry the scales on its eyes instead of with outstretched arm.

One liquor dealer alone paid twenty-seven thousand dollars for license to do business in Jacksonville the coming year. Why a man with that much money should engage in such a business is beyond our comprehension.

There is at least one seaport town in Florida in which whiskey cannot be legally sold. At the recent election in Franklin county Carrabelle gave a majority of 92 against licensing saloons. Apalachicola, however, went wet by 113 majority.

The prohibitionists of Escambia county have the consolation of knowing that they put up a good fight, though it was a losing one. It will at least have the effect of making the saloon men have more respect for the law hereafter.

The saloon men did not win in Escambia county by such a large majority as first reported. Of the 23 electors 16 voted against them and seven for selling. The town went wet by 170 majority in a total vote of 348. The negroes are said to have voted the wet ticket almost solid.

Along the public square in Tampa the sand which has accumulated on the surface of the streets is being hauled off and used in places which badly need it. Let the good work go on. It is high time the people were getting something done with some of the ill-earned money they have been taking in.

F. M. Ironmonger of Tampa, assistant general passenger agent of the Clyde Line, will learn that his son, Frank, a boy of tender age, was painfully injured in New York on Monday by being run over by a heavy truck. The little fellow, in trying to dodge a bicycle, came in contact with the truck, which passed down and rendered him unconscious. He was examined, and it was ascertained that his skull was fractured. The boy's father was notified and left immediately for New York. Ironmonger has many friends in this city and section who will sympathize with him.

PRESIDENTIAL FORECASTS.

The Sun's Washington correspondent writes as follows of the probable candidates for President and Vice President:

"The Chicago Tribune recently completed a political poll of the country which has brought out some very interesting facts. At the present time the preponderance of Republican sentiment is for William H. Taft for President—provided Roosevelt declines to be a candidate. Fairbanks, Knox, Cannon, and Cortelyou, held in high esteem by party men everywhere, apparently are not in the running, while Gov. Hughes of New York, who is as yet little known in the political world, overtops them all. The most astonishing thing is that La Follette, that prince of radicals, bids fair to become stronger than they. From this it appears that radicalism, while not so violent now as it has been, is still exceedingly strong and healthy, and the conservatives at this writing appear to have but little show. Taft, so far, backed by the efforts and eulogies of the administration, has had rather smooth sailing. But there have been no determined efforts in his behalf except in his own State—Ohio. The politicians of the great States of New York, Pennsylvania, Wisconsin, Indiana, and Illinois, have their own axes to grind, and he will have a pretty hard row to hoe when his campaign in those States reaches an active stage. Without the support of those States his case is well nigh hopeless, though if Roosevelt can force the New York delegation to Taft it will be a strong factor in his favor. But in New York Hughes must be reckoned with, and he is a man who cannot be dictated to. He has his State behind him, and should he intimate to the delegates that he would like them to consider him, Roosevelt, Taft, and everyone else would be thrown overboard.

"That Bryan is all-powerful and a man to be feared is evidenced by the efforts of the President's friends to have the Republican nominating convention held over until after the Democratic convention, when it will be known who the Republicans will have to contend with. They take the ground that Roosevelt is the only man who can beat anyone the Democrats may nominate, and they fear that if Roosevelt should be nominated in advance of the Democratic selection, Bryan will be the man to go against him, and in that event Bryan's principal argument would be against a third term for any President. In that event a short campaign would be in favor of the Republican party.

"It is also said that Judge Parker has designs on the Presidential chair, and that his New York friends are earnestly working for his nomination. They believe that the wave of radicalism is now receding, and that by the time the National campaign opens, Parker, as a conservative, will be the most available man for the Democrats to nominate and go up against the Republicans. They are, however, making a big mistake. Because the lusty hue and cry against the corporations has somewhat subsided is no sign that the radicals are losing their first enthusiasm and becoming more conservative. The public has learned its lesson well, and so have the sensible business men of the country. Perfect peace and quiet will only come when the necessary reforms have been accomplished. People have become enamored of the Roosevelt doctrines, and of the Democrats Bryan is the only man who closely approaches that standard, and he is growing in strength every day. The question that will confront the Democrats is apt to be, not the selection of a man for the Presidency, but the naming of a man strong enough to be Bryan's running mate, and that man is likely to be Johnson of Ohio if he is successful in his mayoralty election, or Chanler of New York."

LEST WE FORGET.

It is well to keep in mind the actual facts of the political corruption fund that was raised at the last moment in the Roosevelt campaign by Harriman, at the solicitation of the President and expended by Cortelyou and Odell. That Republican paper, The New York Sun, puts it in chronological order thus: "On October 23, 1904, sixteen days before the election, Chairman Odell of the New York Republican State Committee reported the State to be in danger both as to Roosevelt and Higgins.

On October 24th Edward H. Harriman was called in.

On October 28th Mr. Harriman journeyed to Washington and consulted with President Roosevelt.

On October 29th Mr. Harriman returned to New York City and got into action.

On October 31st, eight days before election, known for a generation as Dough Day in the State, $200,000 of the $260,000 raised by Mr. Harriman was turned over to Chairman Odell for use in the State of New York. There were sixty county chairmen to be appeased, sixty county chairmen not accustomed to disappointment on Dough Day.

Election day was November 8th.

In the Republican vernacular of New York the word "dough" means money to corrupt the voters of the State, and we have the assurance of Edward H. Harriman that 50,000 votes were changed as the result of the fund collected by him and expended by the Republican politicians.

LOG CART NUISANCE.

The Sun has repeatedly called attention to the matter of heavy log carts invading the streets of the city with their heavy timbers, which plough up the thoroughfares and render them almost impassable. The streets are in miserable enough condition as it is, and these carts make them much worse, if such thing is possible.

For a year these teams have been using Arredondo street, with serious results. This street having been rendered in such a poor condition, they have changed their route to West Court and Pleasant streets, and at the present rate it will not be a great while before the condition of these thoroughfares will be deplorable.

There is a law against the driving of log carts on public highways, even in the country where the roads are frequently worked, and the authorities should at least protect the thoroughfares of the city.

It is a feature worth considering now that such strong efforts are being made to turn the tide of immigration Southward that the epidemic of violent crimes from which the North has suffered recently have been almost without exception committed by Italian immigrants. The Black Hand, the Maffia and the Camorra, if there is any difference between the three, have vied with each other in a perfect orgy of murder, assault, blackmailing and kidnapping. The bulk of these crimes have been committed by newly arrived immigrants, and almost without exception the criminals have been Italians. Of course it is not fair to judge a whole nation by its worst element. There has been Italian immigration in this country for decades, and the immigrants as a rule have made good citizens. Starting poor as organ grinders, fruit venders and the like, many of them have come up to wealthy and good position in the business community. It used to be the exception rather than the rule to hear of an Italian committing anything worse than a petty crime. But the source of the Italian immigration has changed recently from the North to the South of Italy, and it seems to have brought into this country some truly undesirable citizens. As this is the case, and there is much talk of turning the newly arrived immigrants South as farm laborers, it may be well for the Southern States to sift this class of importation very carefully before accepting it. The South has had trouble enough managing the colored man and brother alone this same line, and it is not worth while to tangle up with any new racial troubles if they can be avoided.

Some women's complexions don't show their age, for the simple reason that their age doesn't show through.

THE NOVEMBER ELECTIONS.

Besides Massachusetts, only six other States will this year vote for State officers. New York will elect two justices of the court of appeals. Kentucky, Maryland, Mississippi, New Jersey and Rhode Island will elect governors and other State officers. All of the elections will be held on November 5th.

Of these States Kentucky, Maryland, Mississippi and Rhode Island have Democratic governors; the two others are Republican. The significance of off-year elections is not as great as it used to be, inasmuch as State issues now frequently dominate the campaigns, in the absence of any great "burning" National issue upon which the parties are sharply divided. Yet, as this is the year before the Presidential election, the fact is recalled that when, in 1883, Foraker was defeated for governor of Ohio by George Hoadley, and other States witnessed a slump in the Republican vote, the wiseacres foresaw, or afterwards thought they did, the reaction which carried Grover Cleveland into the White House the next year. So in 1895, when Kentucky and Maryland elected Republican governors, the leaders of that party looked forward confidently to the victory which came the next year. Again in 1891, when the Democrats elected Flower in New York and Boies in Iowa, there was a falling off in the Republican majorities in other States.

The real contests this year will be in Massachusetts, where it is expected that Mr. Whitney will lead a vigorous campaign for tariff reduction and reciprocity; in New Jersey, where Republican divisions and the "reform wave" give to the leaders of that party some apprehension; and in Rhode Island, where the Democrats hope to carry again. Maryland, too, has joined the doubtful column. The Republican majority in 1900 was just about equalled by the Democrats in 1902, and in 1904 Roosevelt carried the State by only fifty-one. It is fighting ground this year.

Massachusetts has started the campaign earlier than any other of the States. Nowhere else has there been so much hot weather politics as the preliminary canvass has developed there. A good many people have seen in this another argument in favor of biennial elections. Of what advantage is it to anybody except the office-seekers, the lobbyists and the other professional politicians to have these annual stir-ups, nobody has yet given a rational idea.

THE TAX QUESTION.

Referring to the tax question, The Brooksville Argus says:

"If the land paid the tax there would be more improvements in our rural districts and more people in the rural districts to make the improvements. Let the land, not the industry and enterprise of an agricultural country pay the taxes levied to maintain the peace, good order and safety of a community."

The Sun is in thorough accord with Bro. Russell on this question. There are hundreds of large land owners in Florida who will neither improve their holdings or sell an acre to persons who would improve it, and they should be made to bear a larger proportion of the taxes for maintaining the government. As it is, the men of thrift and industry who improve their property are taxed for every dollar expended for improvements, but the wealthy persons who own large tracts of vacant land return the same at a nominal sum and thus escape their just proportion of taxes on property which they are holding for speculative purposes. All land should be classified and each class taxed at the same rate, the unimproved in the same class being taxed on the same valuation as the improved land.

The Punta Gorda Herald says of the artesian well in that town: "Those who are complimenting Punta Gorda's great artesian well should know that the natural force beneath it sent a solid eight-inch column of water through a vertical pipe twenty-three feet high, and the contractor said that the power is sufficient to lift that column of water to a height of fifty feet. This suggests great possibilities." A well of such force might afford power enough for some minor industries, provided the sinking of other wells does not diminish the pressure.—Jacksonville Times-Union. Just imagine what such an artesian well would be worth to Gainesville. So far, however, all efforts to secure a flowing well here have proved a failure. This is either the hardest place in the State to bore a well, or those who have attempted the work have not been equipped with the proper machinery.

The DeLand Record says: "There will be no oranges sold in Florida this season at $1.00 per box on the tree. The few crops which have been sold so far have brought about $1.50 on the tree, and there will be few oranges sold for less than this price. Tangerines are selling from $2.50 to $3.00 per box f. o. b. With a half crop, compared with last year, the growers are going to get good prices for their fruit this year."

COUNT WINS HEIRESS

Austrian Nobleman to Wed Miss Gladys Vanderbilt.

RICHEST HEIRESS IN WORLD

Count Szechenyi Has Arrived from Austria and His Engagement to a Daughter of the Vanderbilts Is Soon To Be Announced.

New York, Oct. 4.—Advices from Newport, R. I., report the arrival there of Count Landislaus Szzechenyi, of Austria, and say that the formal announcement of his engagement to Miss Gladys Moore Vanderbilt, daughter of the late Cornelius Vanderbilt, and one of the richest heiresses in the country, is soon expected.

Miss Vanderbilt met the count at the railway station in Newport, and drove him to "The Breakers," the famous Vanderbilt palace, which, it is stated, was opened Wednesday for the first time in two years, presumably for the count's return.

Miss Vanderbilt, the dispatches state, spent the whole day with the count in drives and walks and when she was not alone with him her mother was an enthusiastic third party. The count arrived from Bremen late Tuesday night. Alfred and Reginald Vanderbilt met the count, whisked him off in a motor car for a hasty supper alone at one of their clubs and later saw that he was installed in a private car bound for Newport.

Newport's first impression of the count, it is stated, was decidedly favorable. Numerous entertainments will be given for him and Miss Vanderbilt within the next week.

Count Szecheneyi is 28 years old, rich, good looking and a lieutenant in the king's imperial huzzars.

Miss Gladys is just past her twenty-first birthday when she was allotted her share of her father's vast estate, the share amounting, it is estimated, to about $12,500,000.

The Herald says it is authorized to announce the engagement of Miss Vanderbilt and Count Szechenyi.

FARMER'S UNION MET.

Thirty-Eight Unions Represented at Meeting in Rome Ga.

Rome, Ga., Oct. 4.—The Floyd County Farmers' union met Wednesday in the court house here with 38 local unions represented.

The question of holding cotton was discussed, and it was universally decided that every reasonable effort would be made to keep as much of the cotton off the market for the next 30 days as possible.

The meeting had a particular significance, as the farmers of Floyd county are greatly interested in the work of the union just at this time, and are taking an active part because of alleged misleading statements as to the crop in Georgia, which have operated to lower the price of cotton to the injury of the farmer.

It is understood that these high estimates are distasteful to a large number of the members of the union of Floyd county, and that all condemn them. Resolutions on the subject were passed.

100 Special Guards on Duty.

New Orleans, La., Oct. 3.—One hundred special guards went on duty at the Stuyvesant docks of the Illinois Central railroad Wednesday in anticipation of the threatened levee strike involving 8,000 to 10,000 laborers. The strike extends slowly, two crews of longshoremen quiting the steamers whose crews were set to loading. Between 1,000 and 2,000 men have now formally struck, while hundreds of others are idle and waiting only to be ordered to work before joining the strike.

Only Three Offices Affected.

New York, Oct. 4.—A threatened strike of printing pressmen in job printing plants throughout the country, which was scheduled to go into effect Wednesday in offices which declined to yield to the demands of the International Pressmen's and Assistants' unions, affected only three offices in Chicago, according to advices received at the United Typothetæ's headquarters in this city.

$12,000,000 Mortgage Filed.

Augusta, Ga., Oct. 4.—A first mortgage on a twelve million dollar issue of Georgia and Florida railroad bonds was filed with the clerk of the superior court of Richmond county on Tuesday. The understanding is that the issue first made shall not exceed six million and that the twelve million figure shall represent the point beyond which the issue may never go.

HIS SKULL WAS CRUSHED.

Fatal Difficulty Occurred Near Dalton, Whitfield County, Ga.

Dalton, Ga., Oct. 4.—Chester Wilson, a prominent young farmer living in th enorthern part of the county, died Wednesday as a result of being struck on the back of the head with a heavy wagon brake stick, while engaged in a war of words on Thursday of last week, with two boys by the name of Warnick.

While engaged in conversation with Jim Warnick, it is alleged, his brother, Claud Warnick, stepped up and hit Wilson a terrible blow, crushing his skull.

Jim Warnick was arrested, but his brother escaped and Wednesday Sheriff Jonnson offered a reward of $200 for his arrest. Young Wilson is a son of County Commissioner J. A. Wilson, and has a large and influential connection in the county.

SALUTED BY AERIAL BOMBS.

Taft, Secretry of War, Is Given Ovation at Kyoto Japan.

Japan, Oct. 4.—Secretary Taft, Mrs. Taft and their party arrived at Kyoto at 7:30 Thursday morning. Mr. Taft was fatigued but in good spirits. The approach of the train to Kyoto was signalled by salvos of aerial explosions of bombs.

German Count Kuroki, the famous commander of the Japanese right army in Manchuria, met Mr. Taft on his arrival at Kyoto and invited the party to an informal luncheon, after which the male travelers visited many points of interest. Mrs. Taft, however, preferred to go shopping.

A Delightful Surprise.

A number of the young friends of Miss Winnefred Pedrick, daughter of Mr. and Mrs. Chas. C. Pedrick, gave her a delightful surprise party Thursday evening, which was in fact a surprise.

Miss Pedrick, however, with her usual clever disposition, was equal to the occasion, and bade her friends welcome. She entertained them in a most hospitable manner during the evening, and all who attended reported it the most successful "surprise" they had ever witnessed.

Miss Pedrick, who is a winsome young lady, is becoming quite popular among the members of the young set here. Possessed of that open, frank and sincere disposition which has always characterized her, it is no effort for her to control the friendship and confidence of all whom she meets.

Last year the amount was in round figures $1,150,000, and the per capita $1.56.

SENATOR BORAH ACQUITTED.

Great Demonstration Made in Boise, Idaho, Over the Event.

Boise, Idaho, Oct. 4.—United States Senator William E. Borah was acquitted of the charge of conspiracy to defraud the government of Idaho timber lands.

The case was submitted without argument by the defense and the jury was out just long enough to take one ballot.

The verdict was greeted with cheers and applause, which the court officers made no effort to restrain. As soon as the news reached the street, bells were rung and the fire department made a spectacular run through the principal streets, stopping eventually at the Idaho hotel, where Senator Borah, surrounded by several hundred citizens, was escorted.

A brass band appeared as if by magic and as the senator reached the hotel, played "Hail to the Chief."

The streets about the hotel were blocked by a cheering throng whose shouts mingled with the fire engines' whistles and clangs of trolley car bells.

Senator Borah thanked the people for their demonstration of confidence in him throughout the trial.

Horse Jumped Through Window.

Paducah, Ky., Oct. 3.—Thrown from their buggy, as the horse jumped through a 14-foot plateglass window on Broadway, Mrs. W. F. Johnson and sister, Miss Mollie Sullivan, were seriously injured while 4-year-old "Buster Brown" Johnson sat amid the falling glass unharmed. Broadway was crowded with shop girls and business men returning from work when the horse scared at a car, took the sidewalk and jumped into the window. Both women alighted in the mass of broken glass.

Recovered $2,000 from Saloonist.

Montgomery, W. Va., Oct. 4—Mrs. Ellen Lloyd has recovered a judgment against S. O. Payne, saloonist, for $2,000 damages for the sale of liquors to her husband, Samuel Lloyd, an habitual drunkard. This is the first case of the kind ever brought in the county, and saloon men are alarmed at the prospects of a deluge of similar suits.

Senator Platt Sued for Divorce.

PENDREL IN NEW YORK.

Well-Known Transportation Man Enjoying His Vacation.

John Pendrel, the well-known and popular traveling passenger agent of the Clyde Line, who spends two-thirds of his time in Florida among his friends, and would like to spend the other one-third if his employers did not push him North each year, was last heard from in Rochester, N. Y., where he was spending a day or two with his old friend, Chas. R. Hollinger, a former transportation man and at one time one of the most widely known steamboat traffic men in Florida. Mr. Hollinger is also well known, for years being head steward, in charge of headquarters, of the famous Hart Ocklawaha River Line, when the Hart steamers were making double-daily trips up the far-famed Ocklawaha, the Riveria of America, and when even then the commodious steamers of this line could not accommodate all who applied for passage.

Mr. Hollinger, who will be remembered by many Gainesville people in what may now be termed the pioneer days, is now profitably engaged in the insurance business, declaring that steamboat life was too strenuous a career for him—notwithstanding that he made up his mind in this direction after he had served about twenty years at the business.

Mr. Pendrel writes that the weather is quite cool in that section of the country, and, notwithstanding the fact that he had just "lit" in New York State, he was ready to come home.

NOTABLE MEDICAL DISCOVERY.

Of Special Value to Many Here in Gainesville.

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Gainesville is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is always no excuse for anyone suffering with indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heartburn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by J. W. McCollum & Co. under an absolute guarantee to refund the money if it should fail to cure.

COTTON MERCHANTS MEET.

About Two Hundred Delegates Are In Attendance.

Washington, Oct. 4—The National Association of Cotton Merchants convened here Thursday in semi-annual session for a two days' meeting.

About 200 delegates representing nearly every section of this country and over a hundred cotton merchants from England, Germany, Italy, France, Portugal and Belgium were in attendance.

The convention here is preparatory to the international conference of cotton growers, spinners and manufacturers, which will be held in Atlanta on Oct. 7 to 9th. The foreign delegates will also attend the Atlanta, Ga., convention.

The program for Thursday's sessions was an interesting one. Secretary of Agriculture Wilson opened the convention with an address followed by discussions of the following subjects:

"General Questions of Cotton Mill Fires," by Charles H. Fish, of Dover, New Hampshire.

"Cotton Manufacturing and Fiber Waste," H. L. Phillips, of Hartford, Conn.

"An Analysis of Usage," George Otis Draper, Hopedale, Mass.

"Black Is White in Customs Administration," E. A. Hartshorn, of New York.

ALLEGE 600 OFFENSES.

Suits Against Telephone Companies Entered in Arkansas.

Memphis, Tenn., Oct. 4.—A special from Hot Springs, Ark., says:

Alleging six hundred offenses in violation of the anti trust laws of the state District Attorney H. B. Means has entered suit against the Southern Telephone and Telegraph company and the Southwestern Telegraph and Telephone company asking that penalities aggregating $3,000,000 be assessed. The complaint states that prior to May 1, 1905, the Southwestern corporation was the only one in the local field and that shortly after that date the Southern was organized for the avowed purpose of competing and that it established plants here. The state alleges that by means of this pretended competition the new company acquired several thousand new contracts and shortly afterward sold out to the Southwestern.

It is claimed that was a ruse to defeat the law against pooling combines and trusts.
